Art Unit: 1746

1. The indicated allowability of claims 13 and 14 is withdrawn in view of the newly discovered reference(s) to Davis et al. Rejections based on the newly cited reference(s) follow.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 11 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Davis et al.

Re claim 11, note that Davis discloses an apparatus for holding an article comprising a tray having an inner surface with one or more raised corrugation and one or more devices/securing clips. As for holding a guide wire, please note that the preamble has not been given the effect of a limitation in that the body of the claim fails to give life and meaning to the preamble (see MPEP 2111.02)

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Davis et al.

Re claim 13, Davis is cited as applied above, and thusly, claim 13 defines over the Davis only in the recitation of the length of the clips. Nonetheless, to have the clips

Art Unit: 1746

dimensioned as claimed is not deemed to patentably define over the corresponding structure in Davis (see MPEP 2114.06 "SUBSTITUTING EQUIVALENTS KNOWN FOR THE SAME PURPOSE").

6. Claims 8 and 14-17 are allowed.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Mcnett, Fontana, Settner, Adams, Kem et al., Smith, Zierath, Hotze, France'014, Steinberger, Moore, Green and Stein, note the trays.

8. Applicant's arguments with respect to claims 8 and 11-17 have been considered but are moot in view of the new ground(s) of rejection.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (703) 308-0661.
